FOCUS V

ICE CREAM & DISPLAY FREEZER

Used all over the world due to inspiring design, high reliability, low service need and very low energy consumption. So just plug it in and it will run for years.

High quality freezers.

With the FOCUS V freezer, Elcold has succeeded to include two very different parameters into one unit: Elegance but still robust. The result is an optimal way to catch the attention of your customers. The lid design, the improved insulation and the heated frame ensure minimum ice build-up.

Our Focus V model opens the curved glass lid horizontally instead of pushing it to the side like a traditional glass lid.

Reduced energy consumption

Our Focus V units meet the requirements from EU by 1. September, 2023- called Ecodesign. The short version is that all these products are only allowed to use 50 % of the energy compared to 2019. To do this, we have had our focus on lids and compressors- now using energy friendly hydrocarbon refrigerants such as R290 and R600A.

Features.

- Up to 50 % reduced energy consumption compared to 2019.
- Curved lift-up glass lids
- Thermometer
- Castors
- Options:
 - Baskets or plastic food buckets
 - Dividers for baskets
 - LED
 - 75 mm insulation
 - Graphics (minimum quantity required)
 - Castors with brake

Model	Dimensions w*d*h	Energy class 230 V version
-------	------------------	-------------------------------

Focus 73 V	726*656*878 mm	 
Focus 106 V	1056*656*878 mm	 
Focus 131 V	1306*656*878 mm	 

FOCUS 106 V WITH BULK CONTAINER

FOCUS 106 V WITH OPEN LID

FEATURES

- Curved lift-up glass lids
- Thermometer
- Castors
- Options:
 - Baskets or plastic food buckets
 - Dividers for baskets
 - LED
 - Graphics (minimum quantity required)
 - Castors with brake

| FOCUS V |

**IDEAL FOR BULK
INCLUDING ICE CREAM**

The Focus V freezers have an elegant design, but is still robust. They all meet the requirements from EU by 1. September, 2023 - called Ecodesign.

In general it is only allowed to use 50 % of the energy compared to 2019. We are proud that we have achieved this goal. To do this, we have had our focus on lids and compressors- now using energy friendly hydrocarbon refrigerants such as R290 and R600A.
